CRM: It's a successful business methodology powered by smart technology

“Great team - Jim was an indispensable asset to the project - highly recommended.”

PHIL CALLANGHAN
Managing Director,
Caltech

PLAN MORE PROACTIVELY

Transform customer information into clear, actionable knowledge thanks to deep analytics that enable your company to respond quickly to changing customer preferences and emerging market opportunities.

GAIN A CLEAR VIEW OF THE CUSTOMER

Gain a clear, 360-degree view of the customer with access to deep segmentation based on comprehensive customer, sales and demographic information.

GET YOUR MARKETING MIX RIGHT

Use reporting and analysis features to evaluate the performance of your print, e-mail, online and other marketing efforts so that you can concentrate on your most effective marketing channels.

MANAGE WORK MORE EASILY

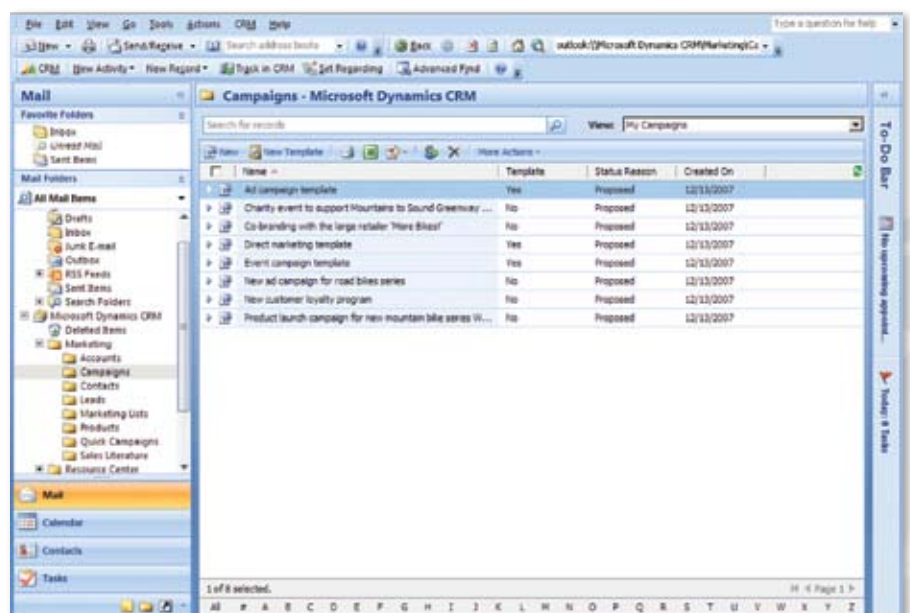

Provide your marketers with customer relationship management (CRM) functionality as a natural extension of Microsoft® Office Outlook® 2007, so they can manage customer e-mail, appointments, tasks, and contacts from a single business application. Create marketing communications quickly with Microsoft Office Word 2007 Mail Merge.

EXECUTE SMARTER CAMPAIGNS

Use intelligent list and segmentation features to reach prospective customers, retain existing customers and transform successful campaigns into templates that can easily be re-used.

GET REAL-TIME VISIBILITY

Take advantage of deep reporting and analysis capabilities to track response rates, measure interest levels and monitor costs for every campaign and activity in real time.

Design, execute and track campaigns effortlessly using customizable templates.

ENABLE PROACTIVE OFFERS

Use a holistic view of each customer's preferences, relationships and buying history to anticipate their future needs, make effective cross-sell and up-sell offers and enhance customer loyalty.

DEVELOP LISTS MORE EFFICIENTLY

Create lists: Automatically create static or dynamic lists based on accounts, contacts, or leads. Use Advanced find to identify potential customers based on a wide range of user-specified criteria. Import lists while ensuring accurate data capture using the Data import wizard.

Complete tasks in bulk: Import data and leads in bulk at non-peak operating hours for optimal system performance with enhanced support for batch operations.

Improve data accuracy: Automatically detect and remove duplicate records in your lists to improve response rates and campaign performance. Easily define rules to correctly handle duplicates.

Manage permission-based marketing: Make sure your list is based on customer permission from the start with native opt-in/opt-out tracking for all contact records to avoid wasted cycles and improve response rates.

MANAGE CAMPAIGNS BETTER

Manage the campaign life cycle: Define tasks, activities and marketing materials for the entire campaign life cycle. Create budgets and define follow-up activities for respondents and non-respondents.

Enhance brand value: Collaborate across teams and business units to maintain and enhance the consistency and power of your brand.

Work in a familiar user interface: Automatically synchronise e-mail messages, tasks and contact details through seamless integration between Office Outlook 2007 and Microsoft Dynamics CRM. Quickly create and send communications using Office Word 2007 Mail Merge and manage mail merge templates from anywhere in the world through a web-based interface.

Track responses: Drive closed-loop campaign execution by tracking responses to every campaign activity. Convert e-mail responses to leads or opportunities, qualify leads and do much more with just a few clicks.

Monitor results: Generate detailed real-time performance reports that track key performance factors including return on investment, response rates and cost per response.

LAUNCH CAMPAIGNS QUICKLY

Plan and execute campaigns: Use predefined system templates for future re-use in campaigns, or create new campaigns from scratch. Schedule campaign activities to be performed immediately or at specific times in the future and launch campaigns anywhere in the world with strong multi-lingual and multi-currency capabilities.

Communicate clearly: Create professional-looking e-mail templates and effortlessly launch mail-merge-based communications. Intelligently convert e-mails into contacts, leads and opportunities automatically according to rules you set up.

Define activities: Choose activities for a campaign, such as e-mail messages, phone calls, faxes, or meetings and assign them to appropriate people.

Just Retirement launched "Just Retirement Solutions" in November 2006, on time and within budget, building its sales and application processing platform on MS CRM. The complete systems infrastructure for this company now supports around 50 staff, including 20 Sales Staff. 2B.net, played a lead development and consultancy role in this delivery, providing specialist CRM Knowledge and allowing Just Retirement to extend this platform far beyond a pure CRM system. Subsequent to this delivery the platform and application has proved to be reliable and agile. 2B.Net have left us with a platform from which we are now able to develop further propositions, without reliance on any other third parties.

TURN LEADS INTO OPPORTUNITIES

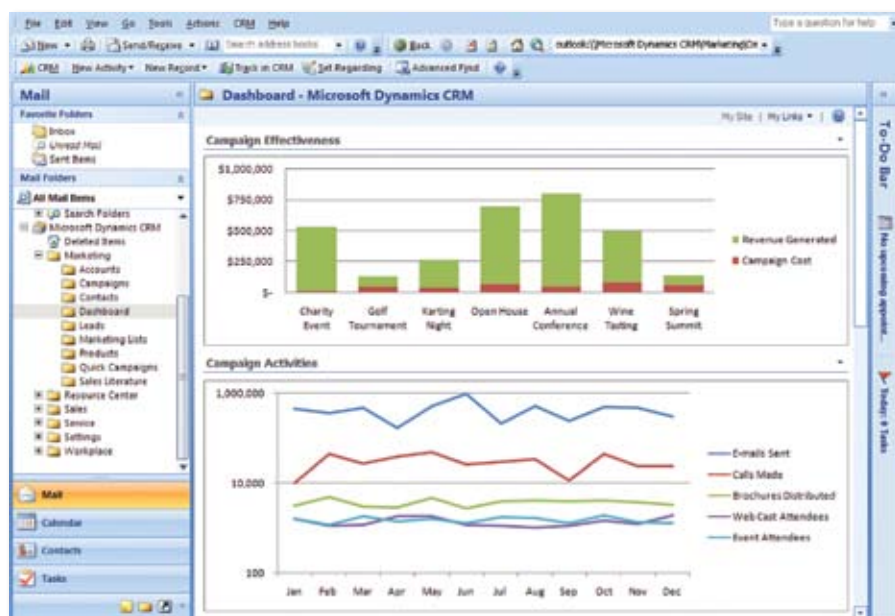

Improve lead handling: easily distinguish new prospects from existing customers and promote qualified leads to new opportunities with a single click.

Route leads automatically: Automatically deliver the right lead to the right person according to product, territory, value amount, or any other criteria based on workflow rules that you define.

Uncover hidden opportunities: intuitively track relationships between customers, prospects, influencers and suppliers so you can uncover new opportunities. Understand and leverage complex business scenarios with enhanced support for many-to-many relationships.

“2B.net has a great team of experts whose technical knowledge and experience is up-to-the-minute. Great team to deal with.”

ROB CHAPMAN
Director,
The Training Group

Track campaign effectiveness, program activities and much more in one unified screen.

TRANSFORM INFORMATION INTO MARKETING INTELLIGENCE

Identify trends and forecast performance: Introduce new products and services efficiently, and improve up-sell and cross-sell opportunities. Allocate marketing resources based on a clear understanding of trends and opportunities.

Build loyalty: Take advantage of the 360-degree customer view to proactively suggest replacements or renewals, or to just reward frequent customers.

Analyse demographics: Segment customers by their demographic profile and spot purchase trends as they develop.

Articulate the ROI of marketing: Create insightful and focused dashboards for executives and top constituents that adeptly highlight key marketing metrics and performance indicators and drive home the value of marketing programs.
