

Sales Force Automation

“Alistair from 2B.net, was with us for 5 months; during that time he provided essential expertise in the configuration, extension and development of our CRM system. He was conscientious and professional, working whatever hours were required to help deliver our solution within the required timescales. Not only that, but he is also a very amiable person to work with; and I hope to work again with him and 2B.net again.”

MANAGE WORK MORE EASILY

Offer customer relationship management (CRM) functionality as a natural extension of Microsoft® Office Outlook® 2007 messaging and collaboration client. Manage customer e-mail, appointments, tasks and contacts from a single business application.

UNDERSTAND YOUR CUSTOMERS BETTER

Create a centralised, customisable view of your customer’s preferences, relationships and activity history to better understand and meet their needs.

IMPROVE SALES QUALIFICATION

Spend time with the right leads and prospects. Establish consistent follow-up processes and automate sales activities with powerful system workflow.

INCREASE SALES SUCCESS

Shorten the sales cycle and improve sale rates with lead and opportunity management, automated lead routing, sales process management and competitor tracking.

KEEP CUSTOMERS INFORMED

Use simple, wizard-driven sales and marketing features to keep your sales prospects and customers informed of new product and service offerings.

ANALYSE SALES PERFORMANCE

Use flexible reporting to forecast sales, measure business activity and performance, track sales and service success and identify trends, problems and opportunities.

DRIVE SUCCESSFUL CUSTOMER INTERACTIONS

Work in a familiar user interface: Manage and monitor all your interactions within a single business application. Automatically synchronise Office Outlook 2007 e-mail, calendar, tasks and contacts with your Microsoft Dynamics CRM database. Automatically convert e-mail messages into contacts, leads and opportunities.

Target your communications: Use customisable templates to create and send e-mail messages to targeted prospects and customers. Quickly create and send communications using Microsoft Office Word 2007 Mail Merge.

Work away from the office: Access robust functionality offline or work from virtually any location using the Web client or a wide variety of Pocket PC devices with Microsoft Windows Mobile® software. Update records, study customer data, carry out analysis and print quotes even when working offline.

Improve data quality: Automatically detect and remove duplicate records to ensure the quality of your customer data.

Do business globally: Compete effectively for global deals and track sales information in multiple languages, currencies and time zones seamlessly.

GAIN A COMPREHENSIVE VIEW OF SALES DATA

Gain a complete view of the customer: View and manage account activity and history, including contact information, attributes, meeting notes, attachments, communications, open proposals and purchased products.

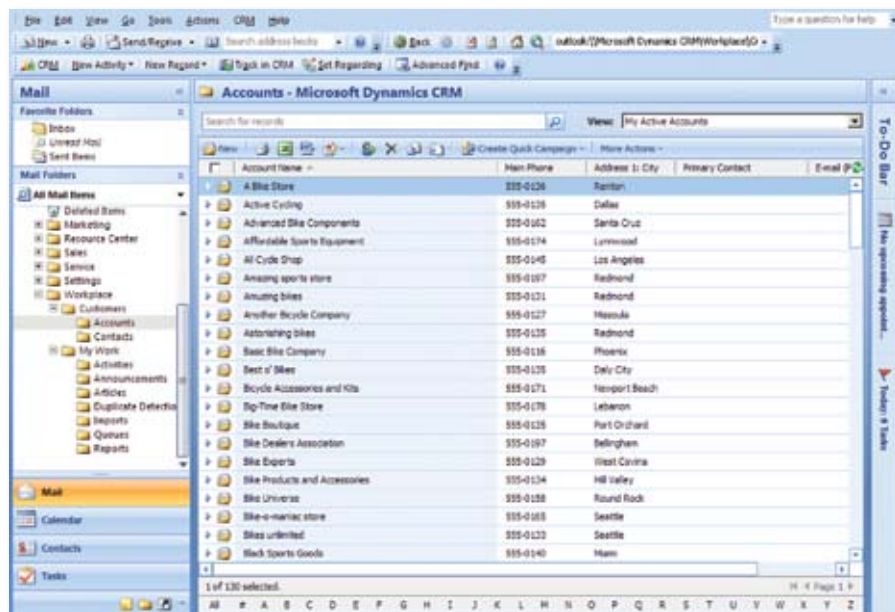

Find information quickly: Use Advanced Find and global search to instantly zoom in on key pieces of information.

Make the right offers: Effortlessly track all interactions, offers, orders, contracts and relationships associated with your account so that you can offer the right product or service at the right time.

Uncover hidden opportunities: Intuitively track relationships between customers, partners, influencers and suppliers so you can uncover new opportunities. Understand and leverage complex business scenarios with enhanced support for many-to-many relationships.

“ICS have a profitable and ongoing relationship with 2B.net that continues to develop as 2B.net expands its technical team and skill set.”

Take a holistic and coordinated approach to the management of customers.

MANAGE AND AUTOMATE SALES PROCESSES

Improve lead handling and routing: Easily promote qualified leads to new opportunities with a single click. Automatically deliver the right lead to the right person according to product, territory, dollar amount, or any other criteria.

Manage quotes and orders: Easily create quotes, convert them to orders, then track and manage them throughout their life cycle from proposals to invoices.

Manage territories: Create territories for sales people, enabling them to manage and evaluate territory-based sales processes and results.

Manage sales and marketing lists: Import purchased lists to fuel your sales efforts. Measure effectiveness and maintain lists for annual sales campaigns.

Manage contracts: Easily add, edit and track contracts associated with individuals or companies, including maintenance contracts and renewal notifications.

Ensure sales methodology relevance: Initiate, track and close sales consistently and efficiently with workflow rules that automate sales stages, lead routing, notifications and escalations. Empower sales people to create their own workflows with workflow tools designed for end users.

COMMUNICATE INFORMATION EFFECTIVELY

Create campaigns quickly: Use wizard-driven tools to keep your customers informed and aware of your new products and services.

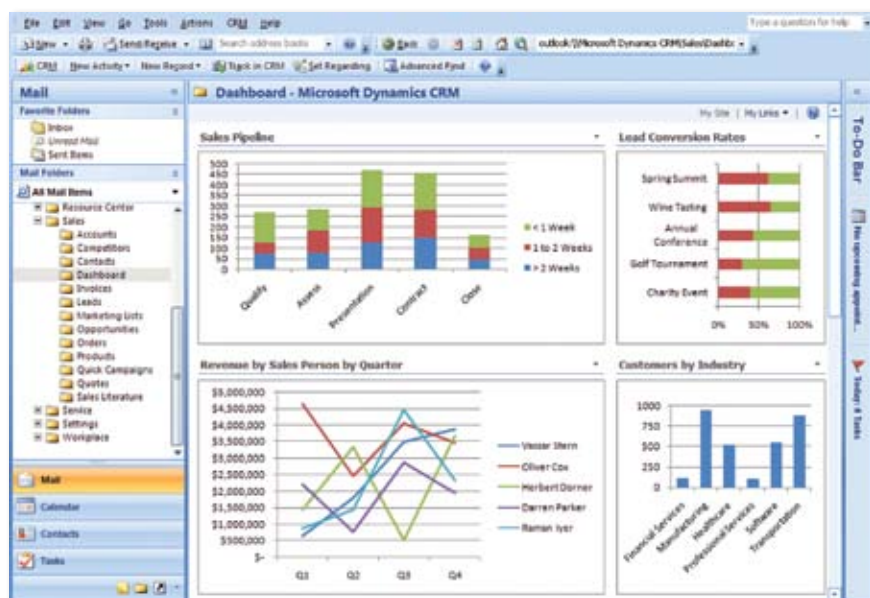

Track competitors: Maintain detailed information on competitors associated with opportunities. Track competitor activity by product, region, or other criteria.

Keep a product catalogue: Work with a full-featured product catalogue that includes support for complex pricing levels, units of measure, discounts and pricing options.

Manage sales literature: Create, manage and distribute a searchable library of sales and marketing materials, including brochures, white papers and competitor information.

“Assistance in configuring CRM 3.0, building CRM reports and SharePoint configuration. Also Scribe data migration to CRM 3.0. Very successful!”
